LICENCE ADDENDUM

This licence authorizes the licensee to establish and operate a radio station as described in the approved application, in accordance with specific items or conditions and applicable provisions of the *Radiocommunication Act* and its regulations. This authority should not be construed as approving the use of any antenna supporting structure which has not been approved by the Department of Transport from an aeronautical safety point of view. Except as provided in the regulations, no change in the apparatus or operations shall be made without the authority of the Minister, Innovation, Science and Economic Development Canada, and the licensee shall notify the Department in writing upon a change of address.

The Department may, at a future date, require the licensee to install filters, tone coding devices, reduce the effective radiated power and/or antenna height as appropriate.

Service indicates the category of service the station is authorized to perform.

For further information regarding your radio licence please contact your nearest Innovation, Science and Economic Development Canada District Office. The *Radiocommunication Act* and the Radiocommunication Regulations are available on Internet at:
<http://www.ic.gc.ca/spectrum>
